Organize Your Mornings

Design the station to fit your space and story. In-drawer or on counter, compact for city rooms or scaled for suites, with inserts sized for cups, condiments, tea, pour over gear, and matcha. Compatible with all machine types and built for quick, consistent reset.

Whether you need a full in-room coffee suite or a few à la carte pieces, we design to your room concept and service goals. The result is a station that looks intentional, works fast, and resets in seconds.

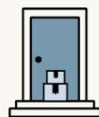

1. Share your space. Tell us the machine, footprint, menu, what you want housed in the tray, and whether it lives on-counter or in-drawer.

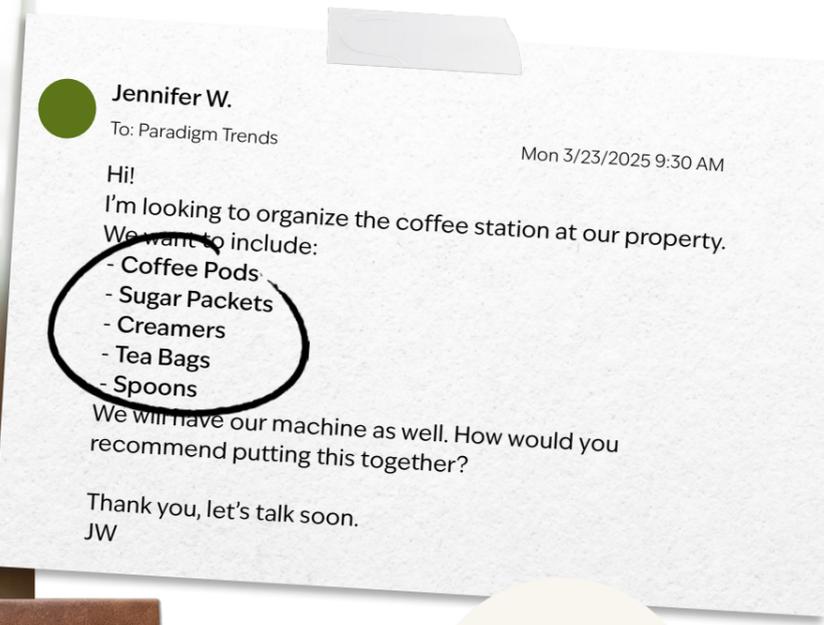

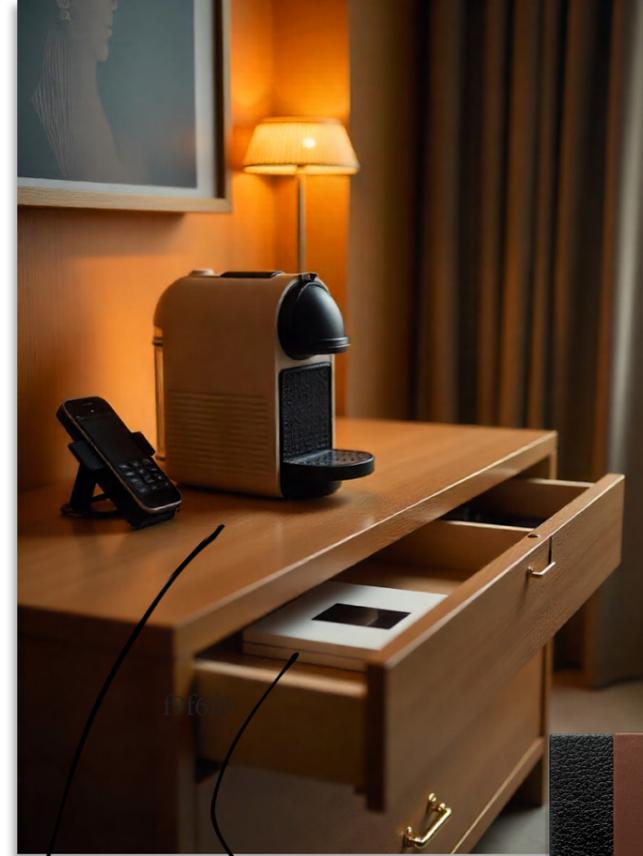

2. We draw it. Dimensioned CADs and layout options arrive for review.

3. You try it and approve. Prototype lands in room. We fine tune, then lock the spec.

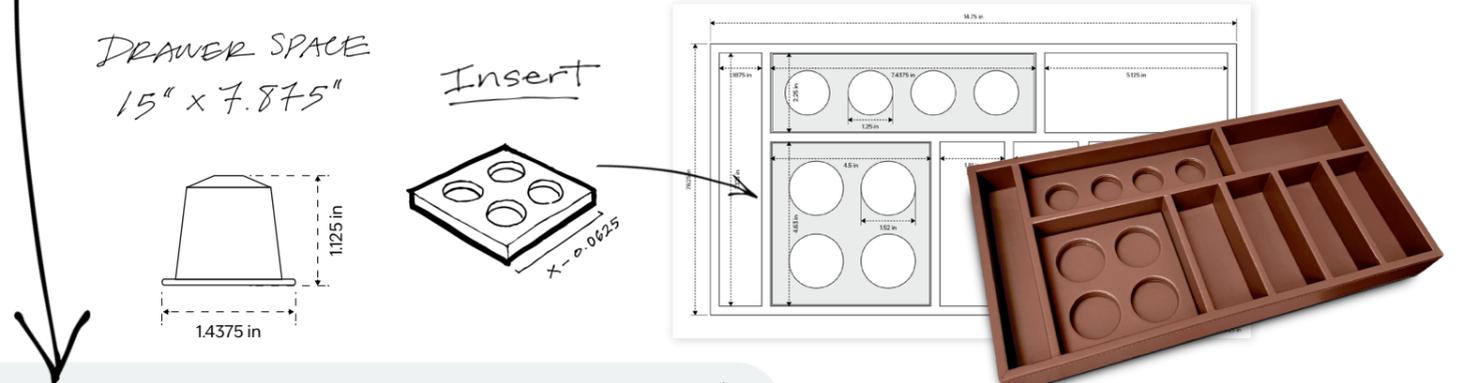

4. We make it and ship. Production, QC, and property-ready packing with simple placement guides.

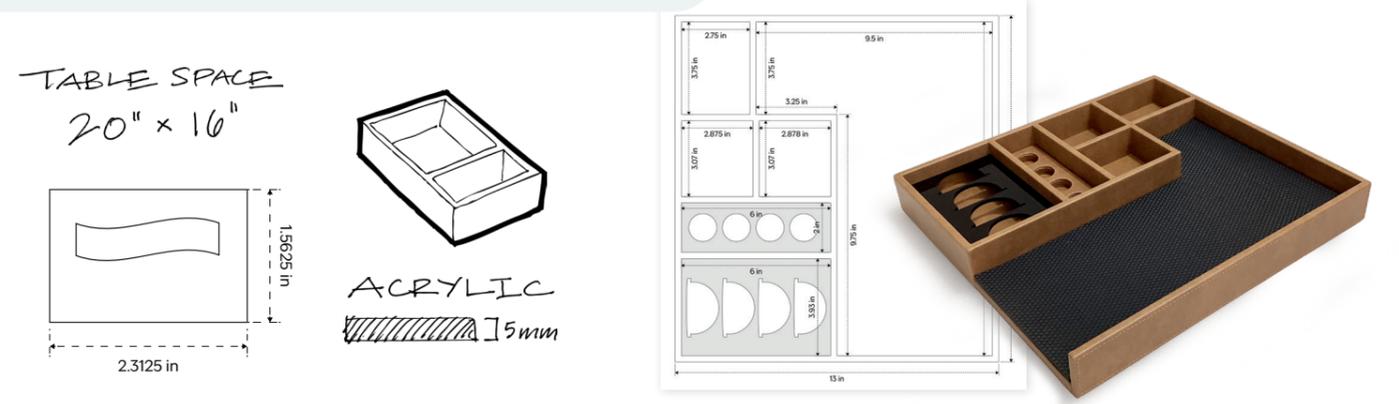

Tailored inserts, same price. Design is on us.
