Whether you need a **full in-room coffee suite** or a few **à la carte pieces**,
we design to your room concept and service goals.

The result is a station that looks intentional, works fast, and resets in seconds.

Custom, modular trays keep counters clear, make resets fast,
and carry your branding for property-wide consistency.

STEP 2. We draw it

Dimensioned CADs and layout options arrive for review.

STEP 3. You try it and approve

Prototype lands in room. We fine tune, then lock the spec.

STEP 4. We make it and ship to you

Hello,

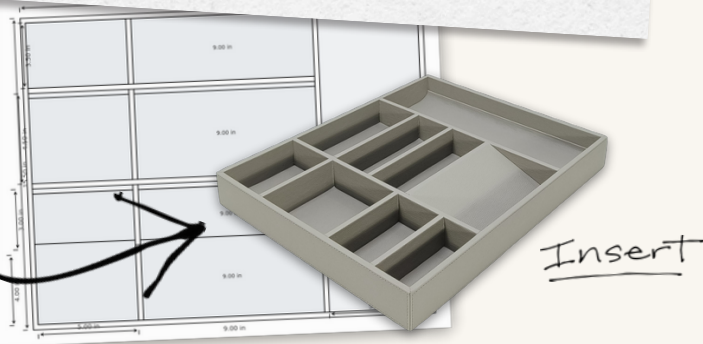

We need a solution for the coffee/minibar area for a multi-property roll-out.

We need to include:

- 3x Snack types
- Tea bags and coffee pods
- Sugar packets
- Mini bottles and 1x wine bottle
- Bottle opener

We want this tucked away in a drawer, do you have advice on this?

Looking forward to speaking.
